Peeriot.
peer-to-peer meets IoT

Leading Edge IoT Solutions – with EdgeVance

Move the edge from the periphery to the center of your data-driven success. You focus on innovating. EdgeVance takes care of the rest.
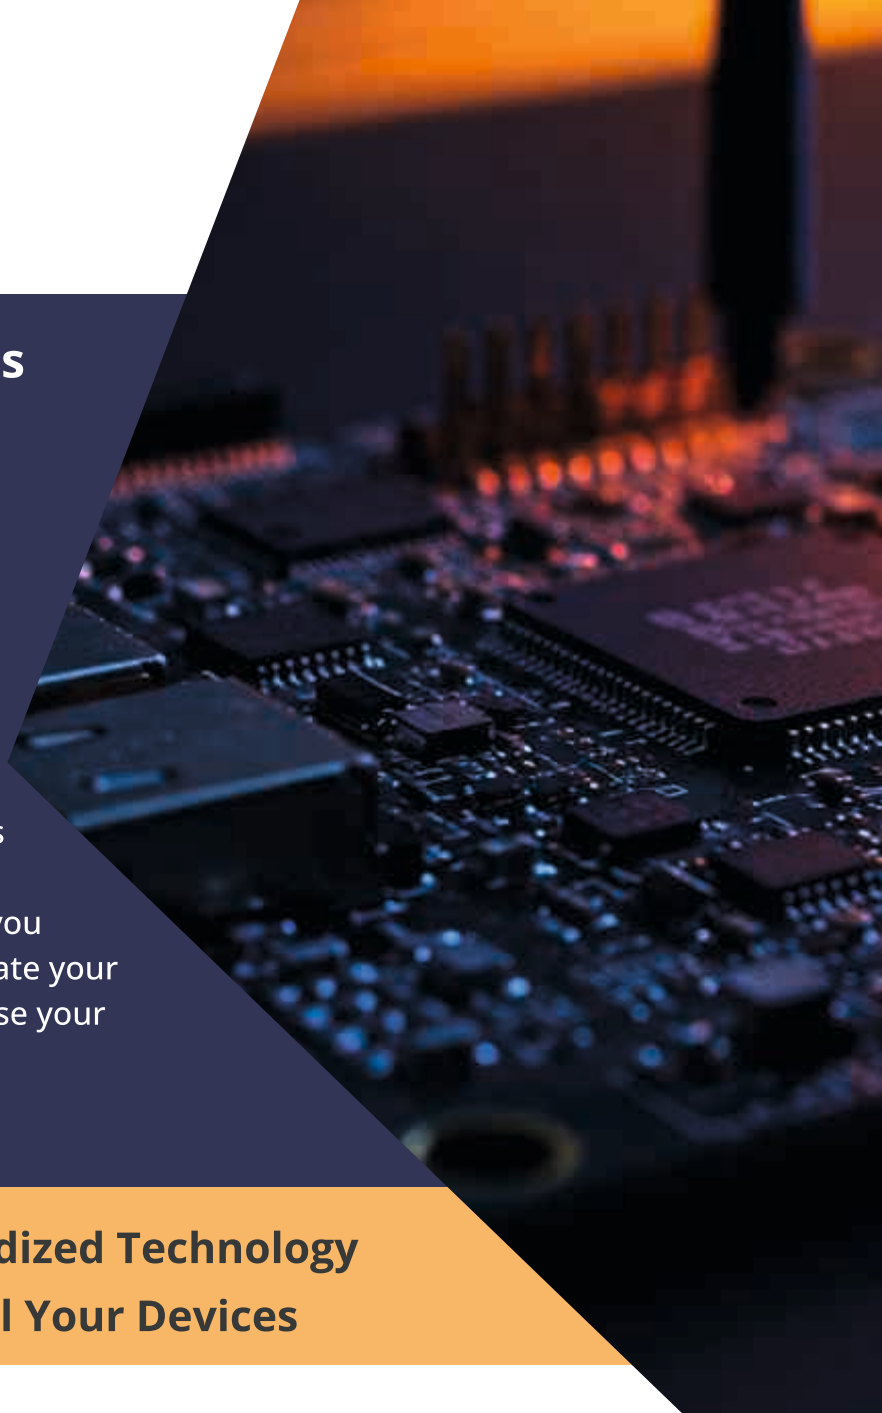

Modern IoT edge solutions require the use of a wide range of technologies. This makes them expensive, error-prone and difficult to customize. With EdgeVance, you can overcome these challenges. Accelerate your time to market, reduce costs and increase your agility and innovative strength.

## Standardized Technology for All Your Devices

Your Advantages:
- Minimize costs and effort
- Accelerate time to market
- Maximize flexibility and scalability
- Guarantee security and resilience
- Simplify device integration
- Enable cloud independence
- Maintain data sovereignty

EdgeVance is your foundation for simplified and accelerated data processing at the edge. Benefit from a unified technology stack for all your devices - from data collection to housekeeping. Intuitively design the flow of data processing with drag-and-drop simplicity and leverage a powerful runtime environment with built-in data management and simple APIs.

EdgeVance Covers the Entire Data Processing Chain of Your IoT Solutions.

Decentralized Data Processing – a Central Overview

- **Integrated data storage, automated data exchange:** Process data in a high-performance environment.

- **Visual designer for multi-level data processing chains:** Define your data flow individually

- **Failover and hot standby functions:** Ensure optimized availability.

- **Centralized administration via Application Center:** Deploy applications with the push of a button.

- **Easy-to-use, secure onboarding:** Easily onboard new devices.

- **Up-to-date firmware and software:** Protect your systems over the air (OTA).

- **Seamless IoT Integration with MQTT (MQTT Client and Broker):** Integrate existing (IoT) systems.

- **Easy and future-proof embedded communication with BLE and LTE-M:** Use our firmware for your embedded communication.

Autonomous Processing - Coordinated Control

Developed for your Smart Solutions – from Smart Factory to Smart Environment

EdgeVance is the ideal foundation for innovative applications in areas such as

- **Smart Factory / IIoT**
- **Smart Logistics**
- **Smart City / Smart Parking**
- **Smart Office & Home**

Get Early Access Now.

Discover the power of EdgeVance today by applying for one of the limited spots in our Early Access Program.
